

Matias

Master's graduate in Mechanical Engineering

CV PREVIEW / VERIFIED DETAILS TO BE ADDED

PROFILE

Mechanical engineering is my foundation. My interests extend across physical systems, computational tools and analytical work in technology and finance.

EDUCATION

Master's graduate in Mechanical Engineering. Institution, exact degree title and attendance dates to be added from the verified CV.

SELECTED WORK

The portfolio includes illustrative engineering, technology and finance case studies. Project content and results are placeholders and should not be treated as achievements.

TECHNICAL TOOLKIT

Example structure: CAD, FEA, CFD and MATLAB; Python, data analysis and Git; financial modelling and quantitative analysis. Capabilities to be verified against real work.

EXPERIENCE

Employment, internships, competitions and society roles will be added when verified dates, responsibilities and outcomes are supplied.

CONTACT

GitHub: github.com/mat-las. Email and LinkedIn details to be added.
